## Re-usable Hose-on APPLICATOR

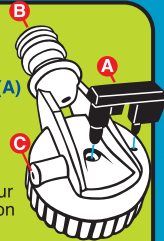

### DIRECTIONS FOR FILLING

1. To fill, unscrew spray head.
2. Empty Searles product into bottle as per application chart (on back).
3. Fill with water (to just below bottle opening).
4. Put spray head on tightly and shake well before use.

NOTE: Searles Garden 'Hose-on' applicator spray is sold for use in applying a range of Searles fertilisers and soil conditioners. It is not recommended for use with pesticides. Always wash out bottle thoroughly before and after applying different products.

### DIRECTIONS FOR USE

1. Shake bottle well before use.
2. Remove two-pinned plug from the top of the hose applicator (A)
3. Connect hose to applicator (B) and turn on tap. (At this stage, only water will be sprayed.)
4. When ready to apply, place your finger over the small hole (C) on the side of the applicator.
5. The Searles product will now be drawn out of the container and diluted with the correct ratio of water from the hose.
6. Keep your finger over the hole and apply spray evenly over plants and gardens using a sweeping movement back and forth.
7. Replace the two-pinned plug after use.
